Summer 2011

SAVE THE DATE!

The 2nd Annual "Sweat for Christian", organized by the Toomeys and their gym, SWEAT PERFORMANCE, will raise money for the JH Pediatric Oncology unit's grocery fund. This fund was created by the Toomeys to help families in financial stress to feel some relief by way of help with their groceries. Join us for a great evening of fun and friends! Work-out is optional and there will be a silent auction with some great items!

Friday, June 10th
5:30pm – 7:30pm
Sweat Performance
2236 Greenspring Drive
Timonium, MD 21093

Email Casey to participate, or for more info:
casey@sweatperformance.com

THANK YOU

Dr. Toomey and his family would like to thank you for your prayers and kind words over the last year for their son, Christian. He is doing very well and will continue with his milder chemo treatments for one more year. His hair and weight are back, which he is enjoying and he is currently serving as the "patient ambassador" for the JH Ped Oncology/Chesapeake Bayhawks fundraising relationship, which has been a great distraction and lots of fun for him.

You are welcome to follow his journey on Christian's Caring Bridge website:
<http://www.caringbridge.org/visit/christiantoomey>

COSMETIC ADVANCES

Countless public opinion surveys have shown that the first thing people notice about you is your smile. Not only can we help you to improve your smile, but Dr. Toomey can help you to soften age lines around it as well!

Take advantage of special offers until June 30th!

Before treatment of nasolabial folds

After two Perlane® 1 mL syringes
Individual results may vary

Before treatment of nasolabial folds

After two Restylane® 1 mL syringes
Individual results may vary

Major advances in dentistry are happening every day. Many of them allow for beautiful cosmetic improvements. Whether you are interested in improving your smile or need a restoration in the front of your smile, Dr. Toomey has advanced training to offer our patients beautiful, as well as functional, results.

COMING SOON

We already offer ORAVERSE, which reverses numbing within 10 to 20 minutes. Very soon, we will be offering The STA Wand, which is a computerized numbing system that can numb a single tooth instead of numbing an entire side of your mouth. This will be a huge improvement for our patients coming in for a single tooth restoration.

QUESTION & ANSWER

Q: What exactly is an implant?

A: There are 3 parts to an implant restoration: the implant, which is placed into the bone and below the gum line, the abutment, which is the piece between the crown and implant, and the crown, which visibly replaces your old tooth. Dr. Toomey often compares it to a tree:

Q: Do you see children?

A: Yes! Dr. Toomey recommends regular exams from the age of 3. We have monitors to view their favorite movie or show, a playroom and after each "superstar" visit, they get to choose a sticker and a toy from our toy basket. Dental visits today are pain-free and can actually be fun! Start your little one on the right path today.

BITE EQUILIBRATION

Many of our patients have experienced a bite adjustment by Dr. Toomey. Some had pain, headaches, fatigue, phantom tooth pain, frequently cracked teeth, while others did not notice problems. Those patients were diagnosed by tooth wear and gum recession and were fortunate to be diagnosed and corrected before painful damage could occur.

Bite Equilibrations will create harmony between the tooth, jaw and joint. This will allow your teeth to work with you, not against each other, which would cause cracks and wear. When your teeth and facial muscles are fighting to get into harmony, symptoms like muscle pain, fatigue, headaches, cracks and gum recession are often the result. When there is harmony, your body will no longer grind and hit hard on random teeth, saving all of your teeth from damage caused solely by a poor bite.

Our goal is to save your natural teeth for as long as possible. Anytime a dental restoration is necessary, your bite will also be considered by Dr. Toomey. You can visit our website, or talk to one of our team members, to learn more!

NEW PATIENTS WELCOME

Your confidence in our office brings referrals of friends and family, which allows our Practice to grow. It also means we can treat more people with the same care and attention we give to you, and that is really great, so thanks!
